

LyMIT 2022

Lymphoid Malignancies with Interdisciplinary Techniques

21st June 2022 - University of Sussex

Free registration, speakers, and more info:

www.bsms.ac.uk/lymit22

Lymphoid Malignancies with Interdisciplinary Techniques (LyMIT) is a new meeting focused on highlighting exciting novel research that uses interdisciplinary techniques to understand blood cancer. The biological focus is on lymphocyte biology and malignancy, however the techniques are broad spanning computational biology, animal models, molecular techniques and everything in between.

The meeting is organised by the Mitchell Group At Brighton and Sussex Medical School, the University of Sussex. We have lined up a diverse and exciting line-up of talks and there will be a poster session with prizes for the best poster presentations.

For latest line up of speakers please visit:

www.bsms.ac.uk/lymit22

Registration: 9:15-10am.

Talks: 10am-5:15.

Drinks until 6pm.

Location:

Bramber House. University of Sussex, Brighton, BN1 9QU.
